Experience

Senior Software Engineer

Kindred Group • Sliema, Malta

Oct 2024 - Present

Tech Stack: Javascript, jQuery, PHP, Laravel, Typescript, CSS, HTML, Bootstrap, Git, ROQL

- **Creation of Extensions:** Create and integrate new functionalities to the Customer Support interface
- **Profile - Rules management:** Ensure optimization of workflows for the internal customers by setting rules and conditions

Technical Lead

Rank Group • Barcelona, Spain

Mar 2021 - Jul 2024

Tech Stack: Javascript, jQuery, PHP, HTML, CSS, Git, MariaDB, MySQL

- **Set Coding Standards:** Established and enforced coding guidelines to ensure consistency, readability, and maintainability
- **Promote Best Practices:** Advocated for best practices, including version control, CI/CD and Agile methodologies
- **Code Reviewing:** Conducted code reviews to ensure quality, functionality, and adherence to standards
- **People Management:** Led and mentored the rest of the developers. Conducted performance reviews, and resolved conflicts with the members of my team

Senior Software Engineer

Rank Group • Barcelona, Spain

Apr 2019 - Mar 2021

- **Developed modules and functionalities:** Created both back-end and front-end new features
- **Bingo game:** Developed several functionalities into the main product, from new game modes, to a Live Stream bingo version
- **Build mobile version:** Built a new mobile UI for the main brand (YoBingo)
- **Creation of new brands:** Developed two new brand websites from a design concept to launch (YoCasino, YoSports)
- **Mobile Applications:** Developed and launched Progressive Web Apps (PWA / TWA) for all the sites of the company

Software Engineer

Ogilvy • Barcelona, Spain

Feb 2018 - Mar 2019

Tech Stack: PHP, CodeIgniter, HTML, Javascript, jQuery, CSS, Tortoise SVN, MySQL

- **Development Improvements:** Developed new features and requests for the websites of the clients
- **Content Management:** Maintained and updated content on the main websites for different clients
- **Development of Marketing Campaigns:** Developed landing pages to collect user data to store it in a database so it could be later sent to Salesforce for marketing analytics

Front-End Engineer

eDreams ODIGEO • Barcelona, Spain

Sep 2016 - Feb 2018

Tech Stack: Javascript, jQuery, HTML, CSS, PHP, Typo3

- **Marketing Campaigns Development:** Developed different types of landing pages used for the different monthly campaigns, where each had a unique approach and required the development of new widgets and components
 - **Landing Page Management:** Managed and developed landing pages for airline companies and tourism offices globally
 - **Content Management:** Maintained and updated the content for the main website and four different brand websites, each targeting different markets/countries
 - **Multi-Brand Coordination:** Coordinated the management of content across multiple brands, ensuring consistency and localization for each market
-
